This may be accomplished by reviewing public record data, prior appraisal or other documentation from a disinterested source and which is considere reliable from the appraiser's perspective. Unless otherwise noted in the appraisal, no interior or exterior inspection of the subject property has been made. In developing this appraisal, the appraiser has incorporated only the Sales Comparison approach. The appraiser has excluded the Cost and Income approaches as not being relevant, given the agreed upon Scope of Work. The appraiser has determined that this appraisal process is not so limited that the results of the assignment ar no longer credible, and the client agrees that the limited service is appropriate given the intended use. The data sources for the comparable sales may include public record data services, multiple listing services, automated valuation models and/or other data sources that become available. The confirmation of comparable sale data, i.e. closed sale documentation and property characteristics, is via public data sources only. The appraiser has not viewed the sales in the field. The data is collected, verified and analyzed, in accordance with the scope of work identified and the intended use of the appraisal. The appraiser acknowledges that an estimate of a reasonable time for the exposure in the open market is a condition in the definition of market value. The subject's marketing time is assumed to be typical for the subject's market area unless otherwise stated.

- 2. There are no adverse environmental conditions (hazardous wastes, toxic substances, etc.) present in the improvements, on the site, or in the immediate vicinity of the subject property.

  3. There are no significant discrepancies between the public record information or other data sources and the existing site or improvements.

ANALYSIS OF ANY CURRENT AGREEMENT OF SALE, PRIOR SALE WITHIN THREE YEARS AND RECONCILIATION: Unless otherwise noted, the appraiser has no knowledge of any current agreement of sale nor any current or past listing agreement. Prior sales of the subject property within three years of the effective date of thi appraisal have been researched and reported, if available from public record sources. The appraiser has reconciled the quality and quantity of data available into an Opinion of Market Value, in accordance with the intended use and scope of work.
